# Safety Data Sheet

## EverFlor - FlowFix - Resurface - Powder

Prepared in accordance with UK REACH - Assimilated Regulation (EC) No 1907/2006, Annex II
Version 1 · 10 Nov 2026

**DANGER**

H315, H318, H317

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

| | |
|---|---|
| **1.1 Product identifier** | EverFlor - FlowFix - Resurface - Powder |
| **Product code** | EVFL-FF-R |
| **Product type** | Powder |
| **1.2 Relevant identified uses** | Floor repair compound. For professional and industrial use. |
| **Uses advised against** | Any use other than those identified above. |
| **1.3 Supplier** | Jarvis Industries Ltd<br>Walkers Industrial Park<br>Ollerton Road, Tuxford<br>Nottinghamshire, NG22 0PQ |
| **Telephone** | 0800 043 8220 |
| **Email** | accounts@jarvisindustries.co.uk |
| **1.4 Emergency telephone number** | Medical advice: NHS 111 (United Kingdom), available 24 hours - have this safety data sheet available.<br>Product and spill information: Jarvis Industries Ltd, 0800 043 8220, office hours. |

## SECTION 2: Hazards identification

2.1 Classification of the mixture (GB CLP - Assimilated Regulation (EC) No 1272/2008)

| Classification | Code | Hazard statement |
|---|---|---|
| Skin Irrit. 2 | H315 | Causes skin irritation |
| Eye Dam. 1 | H318 | Causes serious eye damage |
| Skin Sens. 1 | H317 | May cause an allergic skin reaction |

2.2 Label elements

**Pictograms**

GHS05, GHS07

| | |
|---|---|
| **Signal word** | Danger |
| **Hazard statements** | H315 Causes skin irritation<br>H318 Causes serious eye damage<br>H317 May cause an allergic skin reaction |
| **Supplemental information** | None required |
| **Precautionary statements** | P280 Wear protective gloves, protective clothing and eye protection.<br>P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing.<br>P310 Immediately call a POISON CENTRE or doctor.<br>P302 + P352 IF ON SKIN: Wash with plenty of soap and water.<br>P333 + P313 If skin irritation or rash occurs: Get medical advice or attention.<br>P261 Avoid breathing dust/fume/gas/mist/vapours/spray. |

2.3 Other hazards

- The mixture does not contain substances meeting the criteria for PBT or vPvB at the levels stated in UK REACH Annex XIII, so far as is known.

## SECTION 3: Composition / information on ingredients

3.2 Mixtures

| Substance | CAS No. | EC No. | Concentration | Classification |
|---|---|---|---|---|
| Cement, portland, chemicals | 65997-15-1 | 266-043-4 | <= 10% | Skin Irrit. 2, H315; Eye Dam. 1, H318; Skin Sens. 1, H317; STOT SE 3, H335 |

Substances are disclosed in accordance with the requirements of UK REACH Annex II. Ranges are the suppliers' own declared composition ranges scaled to this product; each substance's true concentration lies within its range, but the upper bounds are worst-case values and cannot all occur at once, so they may total more than 100%. The full text of the hazard statements is given in section 16.

## SECTION 4: First aid measures

4.1 Description of first aid measures

**Inhalation** Move the affected person to fresh air and keep them at rest in a position comfortable for breathing. If breathing is difficult or symptoms persist, get medical attention.

**Skin contact** Immediately remove all contaminated clothing. Rinse the skin with plenty of water for at least 15 minutes. Get immediate medical attention. Wash contaminated clothing before reuse.

**Eye contact** Rinse immediately and continuously with plenty of water for at least 15 minutes, holding the eyelids apart. Remove contact lenses if present and easy to do. Get immediate medical attention.

**Ingestion** Rinse the mouth with water. Do NOT induce vomiting - the product is corrosive and vomiting renews the burn. Never give anything by mouth to an unconscious person. Get immediate medical attention in all cases of ingestion.

4.2 Most important symptoms and effects, both acute and delayed

- Redness and irritation of the skin and eyes.
- Allergic skin reactions may occur in sensitised individuals.

4.3 Indication of any immediate medical attention and special treatment needed

Treat symptomatically. Show this safety data sheet to the attending doctor.

## SECTION 5: Firefighting measures

5.1 Extinguishing media

**Suitable** Water spray, foam, dry chemical powder or carbon dioxide. Use media appropriate to the surrounding fire.

**Unsuitable** None known.

5.2 Special hazards arising from the mixture

- This product is not classified as flammable, but the dried film will burn.
- Combustion produces carbon monoxide, carbon dioxide, dense smoke and other irritating or toxic decomposition products.
- Containers may rupture when heated.

5.3 Advice for firefighters

Wear self-contained breathing apparatus and full protective clothing. Cool closed containers exposed to fire with water spray. Do not allow firefighting run-off to enter drains or watercourses.

## SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

- Ensure adequate ventilation.
- Avoid contact with the skin and eyes. Wear the protective equipment described in section 8.
- Spillages of this product are slippery - take care and warn others.

6.2 Environmental precautions

Do not allow the product to enter drains, sewers, surface water or groundwater. Prevent large spillages from reaching drainage systems and watercourses; contain with inert absorbent material.

6.3 Methods and material for containment and cleaning up

Contain and absorb the spillage with sand, earth, vermiculite or other inert absorbent material. Transfer to a labelled container for

disposal in accordance with section 13. Clean the affected area with detergent and water; do not use solvents.

6.4 Reference to other sections

See section 8 for protective equipment and section 13 for disposal.

## SECTION 7: Handling and storage

7.1 Precautions for safe handling

- Provide adequate ventilation in confined spaces.
- Avoid contact with the skin and eyes and avoid breathing spray or mist.
- Individuals already sensitised to any component of this product should avoid all contact with it.
- Do not eat, drink or smoke in the working area. Wash hands after use.

7.2 Conditions for safe storage, including any incompatibilities

- Store in the original tightly closed container, upright, in a cool, dry, well-ventilated place out of direct sunlight.
- Store between 5 °C and 30 °C.
- Restrict access to authorised, trained personnel. If the product could reach consumers, keep out of the reach of children.

7.3 Specific end uses

See the technical data sheet for this product.

## SECTION 8: Exposure controls / personal protection

8.1 Control parameters

No workplace exposure limits are assigned to the components of this mixture.

DNEL / PNEC: no derived no-effect levels or predicted no-effect concentrations are available for this mixture. Where a registrant has published values for an individual component, they are given in that component's own safety data sheet.

8.2 Exposure controls

| | |
|---|---|
| **Engineering controls** | Provide mechanical extract ventilation sufficient to keep airborne concentrations as low as reasonably practicable. |
| **Eye protection** | Chemical goggles and a face shield (BS EN 166). |
| **Hand protection** | Chemical-resistant nitrile gloves (BS EN ISO 374). Replace immediately if contaminated. Breakthrough time should be obtained from the glove manufacturer. |
| **Body protection** | Overalls or a work suit. Remove contaminated clothing promptly and wash before reuse. |
| **Respiratory protection** | Not normally required with adequate ventilation. Where exposure cannot be adequately controlled - enclosed or poorly ventilated spaces - select respiratory protective equipment through a COSHH assessment. This product is not intended for spray application. |
| **Environmental exposure** | Prevent entry to drains and watercourses. |

## SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

| | |
|---|---|
| **Physical state** | Powder |
| **Colour** | Grey |
| **Odour** | Slight, characteristic |
| **Odour threshold** | No data available. |
| **Melting point / freezing point** | No data available. |
| **Initial boiling point and boiling range** | No data available. |
| **Flammability** | Not classified as flammable - no flammable components; flash point not determined. |
| **Flash point** | No data available. |
| **Upper and lower explosion limits** | No data available. |
| **Auto-ignition temperature** | No data available. |
| **Decomposition temperature** | No data available. |
| **pH** | No data available. |
| **Kinematic viscosity** | No data available. |

| | |
|---|---|
| **Solubility in water** | Immiscible |
| **Partition coefficient n-octanol/water** | Not applicable - the product is a mixture. |
| **Vapour pressure** | No data available. |
| **Vapour density** | No data available. |
| **Relative density** | 1.000 g/cm³ at 20 °C |
| **Particle characteristics** | No data available. |
| **Explosive properties** | Not explosive |
| **Oxidising properties** | Not oxidising |

9.2 Other information

VOC content: not determined. No other information is available.

## SECTION 10: Stability and reactivity

| | |
|---|---|
| **10.1 Reactivity** | No hazardous reactions under normal conditions of use and storage. |
| **10.2 Chemical stability** | Stable under the recommended storage and handling conditions. |
| **10.3 Possibility of hazardous reactions** | None known under normal conditions. |
| **10.4 Conditions to avoid** | Prolonged temperatures above 30 °C. Direct sunlight. |
| **10.5 Incompatible materials** | Strong oxidising agents, strong acids and strong alkalis. |
| **10.6 Hazardous decomposition products** | None under normal conditions. Thermal decomposition or combustion produces carbon monoxide, carbon dioxide and other toxic or irritating fumes. |

## SECTION 11: Toxicological information

11.1 Information on toxicological effects

The mixture has not been tested as a whole. The classification has been calculated from the classifications of its ingredients using the methods set out in GB CLP (Assimilated Regulation (EC) No 1272/2008).

| | |
|---|---|
| **Acute toxicity** | Based on the available data, the classification criteria are not met. |
| **Skin corrosion/irritation** | Causes skin irritation. |
| **Serious eye damage/irritation** | Causes serious eye damage. |
| **Respiratory or skin sensitisation** | May cause an allergic skin reaction. |
| **Germ cell mutagenicity** | Based on the available data, the classification criteria are not met. |
| **Carcinogenicity** | Based on the available data, the classification criteria are not met. |
| **Reproductive toxicity** | Based on the available data, the classification criteria are not met. |
| **STOT - single exposure** | Based on the available data, the classification criteria are not met. |
| **STOT - repeated exposure** | Based on the available data, the classification criteria are not met. |
| **Aspiration hazard** | Based on the available data, the classification criteria are not met. |

Likely routes of exposure

- Skin contact causes irritation; eye contact causes serious, potentially irreversible eye damage; repeated skin contact may cause an allergic skin reaction. Dust may irritate the respiratory tract.

11.2 Information on other hazards

Endocrine disrupting properties: this mixture does not contain a substance identified as having endocrine disrupting properties at or above 0.1%, so far as is known.

## SECTION 12: Ecological information

| | |
|---|---|
| **12.1 Toxicity** | Based on the available data, the mixture is not classified as hazardous to the aquatic environment. |
| **12.2 Persistence and degradability** | No data is available on the mixture as a whole. |
| **12.3 Bioaccumulative potential** | No data available. |
| **12.4 Mobility in soil** | No data available. |

| | |
|---|---|
| **12.5 Results of PBT and vPvB assessment** | This mixture does not contain any substance assessed as PBT or vPvB, so far as is known. |
| **12.6 Endocrine disrupting properties** | This mixture does not contain a substance identified as having endocrine disrupting properties for the environment at or above 0.1%, so far as is known. |
| **12.7 Other adverse effects** | None known. Avoid release to the environment as a matter of good practice. |

## SECTION 13: Disposal considerations

13.1 Waste treatment methods

- Waste classification depends on the condition and composition of the actual waste, not on this sheet alone. Confirm the classification and code with your waste contractor.
- Unused product containing hazardous substances is likely to fall under List of Waste code 08 01 11* (waste paint and varnish containing organic solvents or other hazardous substances).
- Packaging contaminated with the product may fall under code 15 01 10*. Genuinely clean, dry packaging takes the relevant non-hazardous packaging code.
- Dispose of through a licensed waste contractor in accordance with the applicable national and local waste legislation.
- Do not empty into drains. Allow small residues to dry out fully before disposing of the container.
- Empty, dry containers may be recycled where a suitable route exists.

## SECTION 14: Transport information

This product is not classified as dangerous for transport under ADR, RID, ADN, IMDG or ICAO/IATA.

| | ADR / RID (road, rail) | IMDG (sea) | ICAO / IATA (air) |
|---|---|---|---|
| 14.1 UN number or ID number | Not applicable | Not applicable | Not applicable |
| 14.2 UN proper shipping name | Not applicable | Not applicable | Not applicable |
| 14.3 Transport hazard class(es) | Not classified | Not classified | Not classified |
| 14.4 Packing group | Not applicable | Not applicable | Not applicable |
| 14.5 Environmental hazards | Not classified - not a marine pollutant | Not classified - not a marine pollutant | Not classified - not a marine pollutant |

| | |
|---|---|
| **14.6 Special precautions for user** | No special precautions. |
| **14.7 Maritime transport in bulk** | Not applicable - this product is not carried in bulk under IMO instruments. |

## SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations specific to the substance or mixture

- GB CLP - Assimilated Regulation (EC) No 1272/2008 on classification, labelling and packaging.
- UK REACH - Assimilated Regulation (EC) No 1907/2006.
- Control of Substances Hazardous to Health Regulations 2002 (as amended).

15.2 Chemical safety assessment - no chemical safety assessment has been carried out for this mixture.

## SECTION 16: Other information

Full text of the hazard statements referred to in sections 2 and 3:

- H315 - Causes skin irritation
- H317 - May cause an allergic skin reaction
- H318 - Causes serious eye damage
- H335 - May cause respiratory irritation

Abbreviations used in this safety data sheet:

- ADR / RID / ADN / IMDG / ICAO-IATA - international agreements for the carriage of dangerous goods by road, rail, inland waterway, sea and air.
- ATE - acute toxicity estimate.
- CLP - Regulation (EC) No 1272/2008 on classification, labelling and packaging.
- DNEL / PNEC - derived no-effect level / predicted no-effect concentration.

- EUH - European Union hazard statement, supplemental to the H-statements.
- PBT / vPvB - persistent, bioaccumulative and toxic / very persistent and very bioaccumulative.
- REACH - Regulation (EC) No 1907/2006 on the registration, evaluation, authorisation and restriction of chemicals.
- STOT RE / STOT SE - specific target organ toxicity, repeated exposure / single exposure.
- VOC - volatile organic compound.
- WEL - workplace exposure limit (HSE publication EH40).

| | |
|---|---|
| **Revision** | Version 1 |
| **Date of issue** | 2026-11-10 |
| **Changes from the previous version** | First issue. |
| **Prepared by** | Jarvis Industries Ltd. Reviewed before issue by a competent person; contact us via the details in section 1 for questions about this sheet. |

The classification of this mixture has been derived by calculation from the classifications of its ingredients, in accordance with GB CLP (Assimilated Regulation (EC) No 1272/2008). The information given is based on the data available to us and is believed to be correct at the date of issue. It describes the product with regard to safety requirements only and does not constitute a specification or a warranty of the product's properties. It is the user's responsibility to satisfy themselves that the product is suitable for their intended use and to comply with all applicable legislation.
